Time to *rethink* health insurance

Health care is expensive.
Your insurance doesn't have to be.

Let's face it — most medical insurance plans cost a lot. Then, you end up paying for benefits you don't use, and high deductibles and copays make it difficult for your plan to pay any benefits. Something needs to change.

Try National General Foundation Health.

Our plan gives you a more affordable and predictable way to get the health care you need. By paying set dollar amounts when you receive covered health care services, you don't have to worry about deductibles or copays. You get the care you need, and we help you pay for it.

National General Foundation Health provides:

- Affordable access to health care with easy-to-use benefits that start right away
- Set dollar amounts that help you pay for office visits, hospital stays, lab work and more
- First-dollar benefits with no deductible or copay to satisfy
- Access to telemedicine services and WellCard discounts on prescriptions, vitamins and more with a L.I.F.E. Association Membership
- Discounts on covered health care services when you visit network providers

THIS PLAN PROVIDES LIMITED BENEFITS.

National General Foundation Health plans are fixed-indemnity insurance plans that pay limited benefits. National General Foundation Health plans do not constitute comprehensive health insurance coverage (often referred to as major medical coverage) and do not satisfy the requirement of minimum essential coverage under the Affordable Care Act. Without minimum essential coverage, you may need to pay a tax penalty, depending on your income level and the cost of insurance plans available.

What does this plan pay for?

National General Foundation Health offers predictable, easy-to-use benefits

This plan is different than other health insurance plans. It pays pre-set dollar amounts for specific health care services. The benefit you receive for a certain health care service is the same regardless of where you receive your care or how much your provider charges.
